

Call for papers

Correspondence Analysis and Related Methods - CARME 2015

CARME 2015 is the seventh in a series of conferences on multidimensional graphical techniques and the analysis of large data sets, especially categorical data. This conference will take place at the seaside in Naples (Italy) from **September 20th-23th, 2015** at:

Centro Congressi Federico II
Via Partenope, 36
Napoli, Italy

The objective of this conference is to spotlight the very latest research in correspondence analysis and related techniques of multidimensional visualization, as well as to discuss future developments. We aim to bring together theoretical and applied researchers in all the areas where correspondence analysis and related methods are currently being used, notably sociology, psychology, education, ecology, archaeology, geology, linguistics, philosophy, genetics, biomedical research, health economics, marketing and management. Interdisciplinary contributions will be particularly welcome.

Themes of the conference include all forms of correspondence analysis and related fields:

- Simple correspondence analysis
- Multiple correspondence analysis
- Joint correspondence analysis
- Multiway correspondence analysis
- Canonical correspondence analysis
- Nonsymmetrical correspondence analysis
- Dual scaling
- Optimal scaling
- Homogeneity analysis
- Geometric data analysis
- Multidimensional scaling of categorical data
- Visualization of categorical data
- Visualization of compositional data
- Correspondence analysis in the social sciences
- Correspondence analysis in ecology and the environmental sciences
- Correspondence analysis in the health sciences
- Correspondence analysis in management and marketing research
- Correspondence analysis in food and sensory research

Important Dates:

- May 31, 2015: Submission abstract.
- June 14, 2015: Notification of acceptance of conference papers.
- Before July 27, 2015: Early registration fee.
- After July 27, 2015: Normal registration fee.
